

## Quick Start Guide

### 1.Accessing Certifications Centre

#### NOTE

We may add more relevant or remove obsolete test cases from time to time.

It is advisable to run the test cases in the order of the sequence and not recommended to run it in parallel.

To access Certifications Centre, you'll need a developer account and a valid project. If you haven't set up one yet, please refer to the [Getting Started](#) section for instructions on how to get started.

**Step 1.1:** Sign in into your [Developer Portal account](#).

**Step 1.2:** View your available projects by clicking 'My Projects'

**Step 1.3:** Select an existing project or create a new one by clicking 'Create Project'.

**Step 1.4:** Select one of the product and API.

### 2.Viewing Test Cases

▶ 2A. MyDebit

▶ 2B. DuitNow
