Register Account

To get started, you must have a user account in **Developer Portal**. If you already have an account, you can login using your existing credentials. To register for a new user account, follow the steps below.

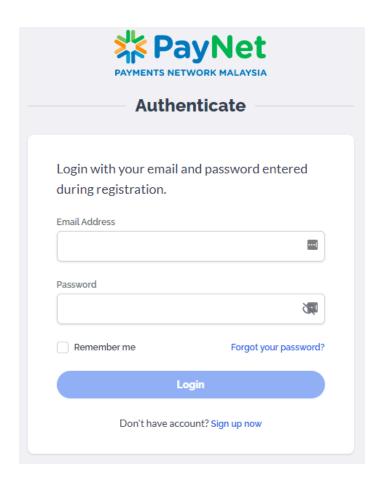

Step 1: Click on the Sign Up to Get Started button.

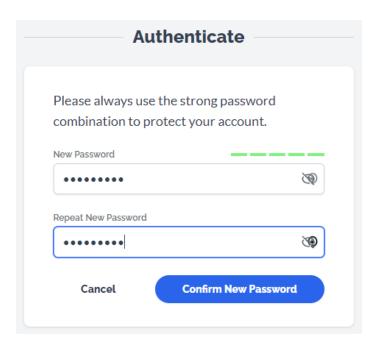

Step 2: In the registration page, fill in the required information and click the **Register Now** button.

Step 3: An **email** will be sent to the registered email address. Follow the steps in the email to proceed to **login** to your account.

Step 4: For first time login, you will be required to **set a new password**.

Step 5: After you have successfully logged in, you may proceed to create a project. Creating a project allows you to experience the configuration and testing of the selected API endpoints.

Step 6: If you are representing a company that is new to PayNet, please email us at **customersupport@paynet.my** so we can proceed with the necessary steps to verify you and your company.

CAUTION

IMPORTANT: Your company must be verified by PayNet in order to proceed to go live (Product setup).
